Bangalore,

1st November 1918.

DOC-143
G.P.2

My dear Buzzi,

Mr. Campbell has written to me demi-officially about two matters:(1) Need for a Medical Faculty in the University, and

(2) Marimallappa's School case.

As regards (1), I have replied to Mr. Campbell giving reasons for not advocating the Medical Faculty so soon. There is need for a Medical School which has already been started.

As regards Mr. Venkatakrishnayya's case, it is rather hard on me to have to reply to an enquiry at this date as to what was being done in the matter. You know I submitted a note through you on which no orders were passed. I have made suggestions very often to you verbally on which no decision has been communicated.

The Karnataka in its latest issue speaks of lack of statesmanship in Mysore. Although the instances he mentions are silly and incorrect, yet I fear the public feeling is strongly coming round to that opinion. His Highness may be aware I have been saying this for over a year past that things are not going on satisfactorily. All I can do is to indicate right lines of work but if my advice is not heeded, it is difficult for me to be responsible.

Even in a democratic country like the United States of America, although many may be consulted, they have one man to direct operations. Here there are seven or eight people and there is no unity of aim or pur-

pose, no unity of policy, in the orders which issue from Government.

In these circumstances, I cannot be blamed if I choose to sacrifice myself rather than subject the administration to a continuance of the present unsatisfactory - - state of things.

Yours sincerely,

M. Viswesvaraya
